## **ADVANTAGES**

- High performance putting greens for any setting
- True natural roll
- Realistic green speeds
- Drastically improves your golf game
- Used by PGA professionals, teachers, tour players and numerous top rated facilities
- Unmatched variety to fit any and every golfer
- Beautiful lifelike appearance
- Fun for the whole family

# **NP45**

## **BENEFITS**

The NP45 is one of the best texturized nylon putting surfaces on the market. Second only to its higher quality counterparts, NP50 and NP55, this product offers natural roll and realistic speeds for a true putting experience. This turf performs best with the high end ceramic infill offered by Synthetic Turf International, but NP45 can also be used without infill, which makes it an ideal indoor/portable putting surface. When will it be time for you to Experience A Greener World and a better golf game?
